Assignment

Ans to the Q. No. 1

UI refers to the screens, buttons, toggles, icons, and other visual elements that you interact with when using a website, app, or other electronic device.

UX refers to the entire interaction you have with a product, including how you feel about the interaction.

Ans to the Q. No. 2

A front-end developer is responsible for developing new user-facing features, determining the structure and design of web pages, building reusable codes, optimizing page loading times, and using a variety of markup languages to create the web pages.

Ans to the Q. No. 3

A back-end web developer is responsible for server-side web application logic and integration of the work front-end web developers do. Back-end developers usually write web services and APIs used by front-end developers and mobile application developers.

Ans to the Q. No. 4
